FEBRUARY -Short Month—Short Issue!

After an extra wet January, Feb has offered a respite and a chance to dry out. We actually had a week or so of Spring-like weather. Cherry tree blossoms are popping out and the weeds in the back 40 are more than 'Knee-high by 4th of July'. Can I borrow somebody's Scythe?

This gorgeous precision scale Nieuport 27 skeleton lost its covering due to old age and extreme brittleness. The Wings of History museum is in need of a model craftsman or woman to recover and repaint the model. Volunteers may contact myself and I'll get you in touch with WOH management.

Now don't call me up all at once.

January Show & Tell

Jake Chichiletti brought a brand new sport model equipped with floats to show off. As is his usual it is not plastic film, but real silk & dope covering!

Lescher Dowling brought his lates tcreation, a metal tether car hot rodded with an unusual Ross two cylinder inline glow engine. Pity Leschers neighbors when he fires up this beauty in his garage!

Returning member

Karl Chulick brought in his long anticipated project— A <u>YATES 10 footer</u> set up for TEXACO events

That's the 10 foot wing on shelve behind him!

Karl added lightening hole in the tail sheeting to make it look really good!

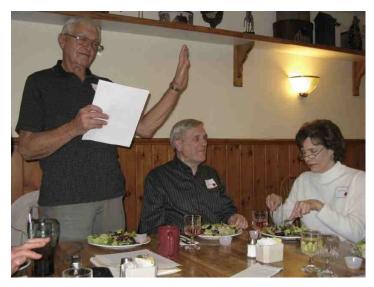

An OS 760 Four stroke will power it before too long!

The 2010 Annual SAM 21 BANQUET

was a rousing success! Primarily, Thanks to Walt Gurney for organizing the event, but also because of those who took the time and effort to attend.

Namely a record setting 39 entrees were pre-ordered! attendees! Thanks to all See you next year! Prez Copeland bestows great honors on organizer Walt while Mrs Gurney attends to business

GAYLE WOMACK gets the cake - OOOH LA LA!

While DAVE LEWIS gets everything else!

Gayle ^ Frank Womack came down from Chcio, Ca to attend. Her they chat with SAM president pro temp ED HAMLER who attended with SAM 27 President Chip all the way from NAPA!

Our Modelers buddy MARIAM SCHMIDT attended from ELK GROVE, CA

So this really a regional event!

Hi Steve:

Below is the result of a tele com I had with Andrew Tickle this A.M. I think it would be appropriate for inclusion in this month's Clipper to start discussion at next week's meeting.

No dates have been discussed yet.

I have attached a revised agenda reflecting this item for discussion for your distribution list/meeting notice. Bill C

Here is a summary of discussion with Bill Copeland, President of SAM 21.

We will have a joint SAM 21/27 relaxed flying event at our field. SAM 21 flyers will be our honored guests at a barbecue.

Chip (SAM 27 president) will be CD. Timers are optional. Flyers post their own scores.

In the spirit of continuing camaraderie SAM 27 challenges SAM 21 to beat them in an annual Speed 400 Contest.

<u>Hi Charlie,</u>

Glad you liked the issue. I too admired Henry's Westerner. Our DWARFs field is presently unreachable because of the rains and muddy inroads but in a month or so Henry should be able to try it out.

I am CCing Jake so he can answer you about the helicopter he is currently flying.

He did say that it is more difficult than his previous heli because the controls are more complex. His previous one - I believe an E Flite uuh something was so There will be a perpetual trophy which will be kept by the club which wins it in the fifth year (2014).

Events

1. Speed 400, SAM rules with 2 minute motor run

2. Unlimited motor run, time starts on motor shut-off.

- 3. Longest flight with any plane, with SAM rules.
- 4. Speed 400 pylon race
- 5. A Miss 2 event.

6. Fly by of the Giants:

Boehle Giant (Dave Saso) 1/4 Scale Piper Cub, (Chip) 9 ft 1928 De Havilland DH 80 Puss Moth (Andrew + Rich Minnick)

Bill will email Chip and myself the SAM 21 Fun Fly Rules as a guideline.

Bill will discuss the date with SAM 21 members at their monthly meeting next week.

Bill suggests a lunch time program such as show and tell, any entertaining narratives ,etc.

Best Regards.....Andrew

JAKE Wrote: Hi Charlie,

I was sweating the heli demo at the club meeting. It is a real handful. If you have previous heli experience then the one I was flying would be good for you. It was an **E-flite MSR.** It is a fixed pitch heli and can be flown outdoors if the wind is calm. It is sold with or without a 2.4 Ghz transmitter.

If you don't have any heli experience then I would go with the **E-flite MCX**. It has counter rotating blades and no tail rotor. It will be a handful at first, but it really is a stable machine and both are full function machines. For either heli the first trick is to fly them in low rates. If you buy the heli with the transmitter you just have to push down on the right stick to go to low rates after you turn it on.. The second trick is to remember to shut off the power <u>BEFORE</u> crashes. You will save a bunch of broken parts if you just do that one thing. I fly mine in my living room and if I'm careful I don't run into too often.

J&M Hobby House in San Carlos (650) 593-5019 has a pretty good selection of them if you want to stop by and look at them. Their located at 1660 Laurel Av.

Hope that info is helpful, Jake

Circa early 1980's

I received most of these photos from JACK JELLA~ at the November Collecto. There is a neat one of Jack with a feisty midget racer taken probably somewhat earlier. Jak is an accomplished corporate pilot and for years ran a professional FBO at Salinas airport. Lately he has retired and is active in SAM Free Flight small rubber models. Thanks, Jack!

There is a group shot of most likely a Salinas Area Modelers RCOT contest. Blue Sky, Green Grass, Puffy white clouds, and colorful lodels and their builders. See how many you recognize. I'll bring the originals to the meeting for your pleasure. There are alos several sheets of color proofs—likely an awards ceremony for sam contest. Featured are the Late Great JOHN POMD, LOREN SCHMIDT, and several other SAM 21'ers of note . Enjoy!
