Strive to be Goodwill Ambassadors!

To begin with I am still spellbound by my road trip to Springerville / Eagar, Arizona. The purpose was to join my long time friend and buddy, Norman Furutani, at the 2019 AMA/NFFS Indoor Free Flight National at the Round Valley Dome in Springerville, Arizona. Norman and I began that friendship over an airplane in 7th grade.

Back to my purpose: to help him with his equipment, timing and in general, provide assistance as needed. It turned out to be more than what I expected. The three day trip was met with blustery winds every day, rain and rain, sleet, snow and high winds from Kingman to Flagstaff, AZ.

In my rig, was a box full of short kits and plans donated by our own Fred Terzian to be shared at the Indoor Nats for those who enjoy flying Old Time free flights and Control Line models. All but a few went to new model aviators and destinations. A family from Chile that span three generations were so appreciative of Fred's generosity, that the grandfather gave me his business card with a note on the back of it thanking Fred. Another family member shared his overall experience as the entire experience was that of friendship in One Family. As we left the dome on Sunday, my friend, Norm, gave the grandfather a Delta Dart kit to share with his grandson, who also competed as a Jr. in a provisional P-18 event.

There were just so many other stories to share, but time and space are limited. The community of Springerville and Eagar, and Round Valley High School and many other luminaries within the free flight community such as Tom Gaylor, Don DeLoach, Thomas Norrell, Chuck Ethrington, John McGrath of Laser-Cut Planes of Colorado Springs, CO, and a gentleman from Kentucky who funded the P-18 kits for the Juniors to build and then fly in two competitive events. (Please forgive me for not including all the other cast of characters and supporters who made this an incredible experience.)

You can go to the AMA Website and search under AMA News to see results, photo's, and videos from the week long contest. Be sure to watch the video of David Aronstein flying his Flying Aces model. The entire dome went silent as it rose from the dome floor.

Regardless of whether we fly Indoor, Outdoor or RC Free Flight, we certainly leave a lasting and positive footprint on the community!
